Keep Staff Communication Alive

Is communication within your company a daily challenge? Is overhead paging too disruptive and not efficient? Are urgent calls going unanswered? LRS staff pagers provide a solution to instant communication between staff, regardless of where they are in the building.

Staff Pagers:

Service Pager - SP4

This rechargeable pager features 1, 2 or 3 vibration or beep notification modes for excellent overall communication. The SP4 is equipped with a pager cradle feature that enhances durability. It is compatible with T7400 and T7450 transmitters.

Rechargeable Alphanumeric Pager - SP5

The SP5 pager, with its rechargeable NiMH battery features an easy-to-read, 20 character display. The scrollable display accommodates messages up to 80 characters long. The SP5 is compatible with the T7400, T7450, and T74C232 transmitters.

Alphanumeric Pager

This alphanumeric pager is equipped with simplified menus for easy message navigation. The Alpha Pager has a 4-line, 255 character message display. It operates on 1 AAA battery and is compatible with the T7400, T7450 and T74C232 transmitters.
